

Tube-gun dispenser

Part # TD 101

TD101 tube gun

Engineered to specifically address the waste and discomfort that result from dispensing materials in collapsible tubes. A comfortable, balanced design that safely protects the tube from damage and the operator from contamination. These features eliminate waste and improve quality by avoiding the introduction of air bubbles when transferring material, thus reducing the possibility of particulate contamination and ensuring that the entire tube is exhausted

TD101 specifications

Size:	7.50" x 3.00" x 6.75" (19.05 x 7.62 x 17.15cm)
Maximum tube length:	7.38" (18.74 cm) 5.5 fl oz (162 ml)
Cycle:	Trigger actuated manually timed
Regulated air input:	(regulator not included)
Start pressure:	Recommended at 20 psi (1.38 bar)
Maximum pressure:	50 psi (3.45 bar)
Weight:	Without tube 9.6 oz (272 gm)
