

## Cartridge Dispensing System

---

**Thermal greases** can be dispensed directly using a cartridge retainer and cap as shown. These are used for dispensing higher volumes of grease and cartridges are supplied in fluid ounces. They are often used for high viscosity thermal greases and will require higher fluid pressure. For this reason metal cartridge retainers are well suited.

These retainers are recommended to use with digital dispenser (**Part# TIM-SL101N**) to achieve precise and consistency shot

### 1/10 Gallon, 6 oz, 8 oz and 12 oz. Metal Cartridge Retainers and cap

Heavy gauge drawn metal retainers to accommodate all cartridges.

#### Retainer Caps

Retainer caps provide a secure lock of the cartridge and metal retainer. Supplied with a female quick connect and sealing ring. One Size fits to all above size retainers.

Part #	Description
TIM-5605008	1/10 Gal. metal retainer & cap (Max. 100psi.)
TIM-5601380	6 oz. metal retainer
TIM-5601381	8 oz. metal retainer
TIM-5601382	12 oz. metal retainer
TIM-5601376	Retainer cap with seal ring
TIM-5601357	Connecting hose 5ft.
