

TIM-SL101N

Digital Dispenser/Controller

An automatic digital dispenser with a bright LCD display and “teach & learn” process programming. Up to 9 independent dispensing programs may be stored for fast recall.

TIM-SL101N has three modes of operation. The first is auto-cycling, which operates by sequencing a self-taught cycle of events including a dispense time together with a wait or pause condition between the cycles. This feature enables the TIM-SL101N to be used as a stand-alone semi-automated dispensing system. Manual-mode enables a dispense operation to be manually controlled by a foot pedal, and timed-mode dispenses at a pre-set time.

Features

- Digitally controlled program
- Easy to use touch sensitive controls
- Suck-back ensures no dripping
- Suitable for a wide range of dispensing
- Stores up to 9 dispensing routines

Part numbers

TIM-SL101N: Digital Dispenser 110/220V

Specifications:

| | |
|-----------------|--|
| Size | 8.63" x 8.50" x 2.63" (21.92 x 21.59 x 6.68cm) |
| Dispense time | 0.01 - 9999 seconds |
| Operation Modes | Manual, Timed, Cycle |
| Internal Memory | 9 Memory locations |
| Voltage | 110 - 240 VAC 50/60Hz |
| Air input | 70 to 100 psi (5 to 7 bar) |
| Air output | 1-100 psi (0.1 - 7 bar) |
| Standards | CE approved, RoHS compliant |
| Weight | 3.5 lbs (1.59 kg) |
